

# LPP4513 Tabletop Multi-Laminator

Energy saving standby mode

Heated rollers for scratch free laminations

## SPECIFICATIONS:

<b>Model No.:</b>	LPP4513
<b>Maximum Laminating Width:</b>	18"
<b>Laminating Film Thickness:</b>	1.2 mil - 10 mil
<b>Mandrel Core Size:</b>	1" and 3' cores
<b>Speed:</b>	Variable up to 10 feet per minute
<b>Gross Weight:</b>	65 lbs
<b>Power Requirements</b>	Standard 120 volt power

**One Side Laminating** - System has built-in decurler to produce flat sheets. Built-in perforator wheel weakens the edge of the lamination for easy hand sheet separation.

**Two Side Laminating** – Film thicknesses from 1.2 mil through 10 mil.

**Mounting** – Roller pressure gaps to allow insertion of foam boards for mounting as well as simultaneous mounting and laminating for signs, trade show displays, etc.

- Food pedal web advance included
- Easy set temperature dial, ready light when set temperature is achieved
- Optional liner rewinder available for use of PSA (cold) films
